Monthly Report- Street Department August 2017

Road Projects:

- *Whitestown Parkway Resurfacing Project* is set to begin in August.
- *Whitestown Paving 2017* is set to begin in August. This will eliminate the gravel roads in Whitestown. CR 500 S and CR 700 E will be paved.

Other Street Department Projects:

- The Hawk Signal shop drawing is now complete and the pole is currently at the fabrication shop. We will put a 48 in x 48 in Whitestown Logo sign at the top of the mast facing north and south. Ideally, the signal will be installed within the next 30 days.
- The DPW staff is currently obtaining quotes to trade in and replace our old backhoe. The cost estimates so far indicate that after we trade in the current machine, the new machine will cost roughly \$70,000. This cost will be split between MVH/ Utility. We intend to have these quotes for the September council meeting.

Mosquito Treatment:

- We have been treating areas with the ULV (ultra low volume) machine 2-3 nights per week after 9 pm.
- We are treating standing water as needed.
